CoLi3o®

Bring your imagination to life

CoLi3o X3045

Powered by:

PRINT-RITE

Get your Big idea out

Easy
- User-friendly interface control panel
- Chamber temperature management for consistent 3D printing performance
- Faster printing mode is available

Design
- Stylish appearance with durable steel chassis frame with easy swing door
- Dependable structural framework for steady 3D printing process
- CoLiDo® filament range available

Operation
- Patented design printing platform for steady performance
- Intelligent print head design for precise 3D printing
- Built-in LED for viewing 3D printing progress

CoLiDo® X3045

Recommended for manufacturing industries, jewelry design, education and medical research

Specification

Print Technology	Fused Deposition Modeling
Nozzle Quantity	1
Build Volume	30*30*45 cm
Layer Resolution	0.1 ~ 0.4mm
Filament Material	PLA/ABS
Filament Diameter	1.75mm
Dimension(Weight)	53*53*64 cm (40kg)
File Type	STL and G-Code
Supports	Windows 7, MAC OS, Linux
Connectivity	USB and SD Card

CoLiDo®
