

DATASHEET: PELLET PRO FEEDER

The feeder provides the pellet supply for direct printing. It has an initial tank of 40 cm in height to hold 7.06 dm³ of pellets. It is equipped with an end-of-material sensor at the tip and a temperature and humidity sensor inside for better control of this data.

FEEDER SIZE	166 X 166 X 510 mm	Aluminium Composite
HOPPER SIZE	400 X 150 mm diameter	Translucent Polycarbonate 3 mm thick
HOPPER VOLUME	7,06 dm ³	
MATERIAL DETECTION SENSOR	Diode-Led IR	
DIAL INFORMATION	Humidity - Temperature	Screen size 45 X 26 mm
POTENTIOMETER		
POWER SUPPLY	12V - 5A	
PELLET ADMITTED	Minimum: 1 mm	Maximum: 4 mm
FEEDER WEIGHT	1,7 kg
